A WORD FROM THE BARTENDER

Rèst-âü-Ránt strives to use local, organic and natural ingredients. Our research team examines the T.L.index* for each ingredient before pouring it into a glass.

*T.L. index is used for measuring the travel of imported products in relation with the number of google hits the product gets. If the travel distance (in kilometers) divided with the number of google hits the product gets is between 1-10 the product will not be included in Rèst-âü-Ránt menu.

Rèst-âü-Ránt

WINE • BEER • CHEESE
